d Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Macphail proposed to narrow the claimed targeting cells to tumor specific CTL for treating tumor cells to overcome the enablement rejection under 112, 1st paragraph. With regard to the rejection under section 103, Mr. Macphail indicated that the references did not teach a tumor specific CTL, and applicants did not intend to claim an antibody as a targeting domain. The Examiners indicated that the discussion and amendments would help to advance the prosecution.
